SUMMARY

Motivated and detail-oriented tech enthusiast with hands-on experience in Full Stack Web Development, Artificial Intelligence, and Data Science. Skilled in building responsive web applications using HTML, CSS, JavaScript, React.js, Node.js, and managing databases like MongoDB and MySQL. Proficient in data analysis, machine learning, and AI model development using Python, Pandas, scikit-learn, and TensorFlow. Strong understanding of end-to-end software development, from UI/UX design to backend logic and data-driven decision-making. Adept at solving real-world problems through technology and continuously learning new tools to improve system efficiency and performance.

SKILLS

- Machine learning
- Front-end
- Back-end
- Databases
- python
- java
- Web application development

EXPERIENCE

FULL STACK DEVELOPER INTERN, 06/2025 - Current

Nandha Infotech, Coimbatore, India

As a Full Stack Developer Intern, I am contributing to the development of web applications using technologies like HTML, CSS, JavaScript, React.js, and Node.js. I assist in building APIs, managing databases, and ensuring responsive UI/UX. I collaborate with the team in an Agile environment, gaining hands-on experience with Git, Postman, and deployment tools.

EDUCATION AND TRAINING

SRI Ramakrishna Metric Higher Secondary School, Expected in 08/2027
B.Tech Artificial Intelligence And Data Science
